Service Letter A-4

May 6, 1937

*See A-6 also*

The following valve springs are now used in the Super-Scarab, Scarab and Scarab Junior engines.

Super Scarab:

	<u>Intake</u>	<u>Exhaust</u>
Outer spring	No. 7740	7740
Inner spring	No. 7131	7741

Scarab and Scarab Junior:

	<u>Intake:</u>	<u>Exhaust:</u>
Outer spring	No. 7132	7740
Inner spring	No. 7131	7741

When installing Nos. 7740 and 7741 valve springs, the end with the dampener coils marked with RED paint should be installed to rest of No. 7094 valve washer-Lower, which bears on the cylinder head.

Yours very truly

The Warner Aircraft Corp.
