

The Warner Aircraft Corp.
20263 Hoover Ave.
Detroit, Mich.

Service Letter A-8

May 6, 1937

The following valve springs are now used in the Super Scarab,
Scarab, Scarab, Jr. engines.

Super Scarab:

	<u>Intake</u>	<u>Exhaust</u>
Inner Spring	#7741	#7741
Outer Spring	#7740	#7740

Scarab and Scarab, Jr.

	<u>Intake</u>	<u>Exhaust</u>
Outer Spring	#7132	#7740
Inner Spring	#7741	#7741

When installing #7740 and #7741 valve springs, the end with the dampener coils marked with RED paint should be installed to rest on No. 7094 valve washer-lower, which bears on the cylinder head.

Yours very truly,

The Warner Aircraft Corp.
